APPENDIX B DATA COLLECTION

Standard Buildings and Facilities, Energy Intensive Facilities, and Exempt Facilities

The Federal agencies that own or control buildings are required to report the energy consumption in these buildings to FEMP 45 days after the end of each fiscal year. The General Services Administration (GSA) reports the energy of buildings it owns and operates, including usage by other Federal agency occupants. For buildings which have been delegated by GSA to other agencies, the individual agencies are responsible for reporting the energy consumption and square footage figures.

The data shown in this report do not include leased space in buildings where the energy costs are a part of the rent and the Federal agency involved has no control over the building's energy management.

The Federal agencies submit their annual reports expressed in the following units: megawatt hours of electricity; thousands of gallons of fuel oil; thousands of cubic feet of natural gas; thousands of gallons of liquefied petroleum gas (LPG) and propane; short tons of coal; billions of Btu of purchased steam; and billions of Btu of "other." DOE reviews this data for accuracy and confers with the submitting agency to clarify any apparent anomalies. The data are then entered into a computer database management program.

The tables shown in this Annual Report are expressed in billions of Btu derived from the following conversion factors:

Electricity	-	3,412 Btu/kilowatt hour
Fuel Oil	-	138,700 Btu/gallon
Natural Gas	-	1,031 Btu/cubic foot
LPG/Propane	-	95,500 Btu/gallon
Coal	-	24,580,000 Btu/short ton
Purchased Steam	-	1,000 Btu/pound

The above conversion factors for electricity and purchased steam refer to site-delivered energy (or heat content) and does not account for energy consumed in the production and delivery of energy products. Tables 1-A, 4-A, and 7-B of this report account for primary energy use, which is the sum of the energy directly consumed by end users (site energy) and the energy consumed in the production and delivery of energy products. According to the Energy Information Administration, in 1999, steam electric utility plants (the largest source of electricity generation) were estimated to have used 10,346 Btu of fossil fuel energy to generate 1 kilowatt-hour of electricity. DOE uses this conversion factor to calculate primary energy use for electricity and 1,390 Btu per pound for purchased steam.

In addition, the Federal agencies annually report to FEMP the gross square footage of their buildings and the cost of their buildings' energy.

Vehicles and Equipment

Federal agencies are required to report the energy consumption of their vehicles and equipment to FEMP within 45 days after the end of each fiscal year.

The fuels used in vehicles and equipment are automotive gasoline, diesel and petroleum distillate fuels, aviation gasoline, jet fuel, navy special, liquefied petroleum gas/propane, and "other." All the fuels in this category with the exception of "other" are reported in thousands of gallons. "Other" is reported in billions of Btu.

The conversion factors for these fuels are:

Gasoline	-	125,000 Btu/gallon
Diesel-Distillate	-	138,700 Btu/gallon
Aviation Gasoline	-	125,000 Btu/gallon
Jet Fuel	-	130,000 Btu/gallon
Navy Special	-	138,700 Btu/gallon
LPG/Propane	-	95,500 Btu/gallon

This report excludes those agencies that have been unable to provide complete fiscal year consumption data prior to the publication date. All agency omissions, as well as any anomalies in the data, are indicated by footnotes on the tables or in the text of the report.

Calculation of Estimated Carbon Emissions

In the past, DOE tracked and reported aggregate energy use for all Federal agencies and estimated carbon emissions using national fuel-specific emission factors. This approach, however, resulted in less accurate emission estimates for electricity use because carbon emission factors for electricity vary significantly by utility and State depending on the resource used to generate the electricity (e.g., coal, gas, nuclear, hydro).

To obtain a greater level of accuracy in estimating emissions from electricity use, DOE developed a new approach that places little or no additional reporting burden on the agencies. Agencies continue to report their aggregated national-level electricity consumption data as they have in the past. DOE then takes that total consumption figure and apportions it across the States in which the agency has facility locations. DOE will then multiply the apportioned electricity usage by the appropriate regional-level carbon emission factor assigned to each State. Once emissions from electricity use are calculated, these will be added to the emissions estimated from the other fuels used by the agency to determine total carbon emissions. (National factors may be appropriately used for fuel oil, natural gas, LPG/propane, coal, and purchased steam.)

DOE estimated State electricity usage by determining the percentage of facility floor area for the agency and apportioning the reported total electricity use according to that percentage. For the purposes of estimating changes in greenhouse gas emissions over time, DOE is assuming that floor area can be used as a reasonable proxy to represent the State-level usage pattern for electricity consumption for an agency. DOE uses historical square footage data for Government-owned buildings from the General Services Administration's Office of Governmentwide Policy, Office of Real Property to determine each agency's percentage floor area for each State.

DOE uses factors derived from data from the Energy Information Administration (EIA) for estimating carbon emissions from non-electric fuels on a nation-wide basis. The regional emissions factors for electricity were calculated by summing the annual EIA data on electricity sales and carbon emissions for each State in a given region. These sums were then used to calculate the regional emissions/kWh (which were then converted to MMTCE/Quad). This value will be used for each State in a particular region.

Non-Electric Fuel National Coefficients Million Metric Tons of Carbon Equivalent (MMTCE) per Site-Delivered Quad (or Metric Tons of Carbon Equivalent [MTCE] per Site-Delivered Billion Btu)

	1990	1991	1992	1993	1994	1995	1996	1997	1998	1999	2000
Fuel Oil	19.95	19.95	19.95	19.95	19.95	19.95	19.95	19.95	19.95	19.95	19.95

2000	980,488.6	\$7,365.018	\$7.512	-\$7,911.920

¹Changes in energy costs from 1985 should not be construed as savings resulting from Federal energy management activities. Many variables contribute to fluctuations in annual energy costs, including changes in square footage, building stock, weather, energy efficiency investments, service level, fuel mix, fuel prices, and vehicle, naval, and aircraft fleet composition. This table incorporates revisions to previously published energy consumption and cost data submitted to DOE by Federal agencies.

Source: Federal Agency Annual Energy Management Data Reports

APPENDIX D INDUSTRIAL, LABORATORY, RESEARCH, AND OTHER ENERGY INTENSIVE FACILITIES

Department of Agriculture (Agricultural Research Service)

514	Laboratory Buildings	76	Garages
494	Other Building Types	54	Trailers
479	Greenhouses	8	Engineering Facilities
426	Storage Buildings	6	Restroom Buildings
242	Barns	5	Fire Stations
215	Sheds	4	Filling Stations
158	Shops	2	Waste Treatment Buildings
137	Housing Buildings	2	Incinerator Buildings
98	Headhouses	2	Bus Stations
87	Chemical Storage Buildings	1	Chapel
85	Office/Laboratory Buildings	1	Weather Station
78	Office Buildings

APPENDIX F
FEDERAL INTERAGENCY ENERGY POLICY COMMITTEE
(656 COMMITTEE)
FY 2000

Committee Chair

Mr. Dan W. Reicher
Assistant Secretary
Energy Efficiency and Renewable Energy
U.S. Department of Energy, EE-1
Forrestal Building, Room 6C-016
1000 Independence Avenue, SW
Washington, DC 20585
Phone: 202-586-9220
Fax: 202-586-9260

Agriculture

Mr. Paul W. Fiddick
Assistant Secretary for Administration
U.S. Department of Agriculture
Administration Building, Room 240W
14th and Independence Avenue, SW
Washington, DC 20250-0103
Phone: 202-720-3590
Fax: 202-720-2191

Commerce

Linda J. Bilmes
Assistant Secretary for Administration
U.S. Department of Commerce
Main Commerce, Room 5830
14th and Constitution Avenue, NW
Washington, DC 20230
Phone: 202-482-1200
Fax: 202-482-1962

Defense

Mr. Randall A. Yim
Acting Deputy Under Secretary of Defense
(Installations)
3330 Defense Pentagon, Room 3E-1074
Washington, DC 20301-3330
Phone: 703-697-1771
Fax: 703-695-6929

Education

Mr. Willie H. Gilmore
Director of Office for Management
U.S. Department of Education
400 Maryland Avenue, SW, Room 3E-1069
Washington, DC 20202
Phone: 202-401-0470
Fax: 202-401-0485

Environmental Protection Agency

Mr. John C. Chamberlin
Director Office of Administration
and Resources Management
Environmental Protection Agency
Room 1109 West Tower, MS3201
401 M Street, SW
Washington, DC 20460
Phone: 202-260-8400
Fax: 202-260-8408

General Services Administration

Mr. Robert A. Peck
Commissioner of Public Buildings Service
General Services Administration
Room 6344
18th and F Streets, NW
Washington, DC 20405
Phone: 202-501-1100
Fax: 202-219-2310

Health and Human Services

Mr. John Callahan
Assistant Secretary
for Management and Budget
U.S. Department of Health
and Human Services
Hubert H. Humphrey Building,
Room 514-G
200 Independence Avenue, SW
Washington, DC 20201
Phone: 202-690-6396
Fax: 202-690-5405

Housing and Urban Development

Ms. Karen Jackson
Deputy Assistant Secretary for Administration
U.S. Department of Housing and
Urban Development
Room 10110
451 7th Street, SW
Washington, DC 20410
Phone: 202-708-0940
Fax: 202-619-8129

Interior

Mr. John Berry
Assistant Secretary for Policy,
Management and Budget
U.S. Department of the Interior
Room 6130
1849 C Street, NW
Washington, DC 20240
Phone: 202-208-4203
Fax: 202-208-4561

Justice

Mr. Stephen R. Colgate
Assistant Attorney General
for Administration
U.S. Department of Justice
Room 1111
10th and Constitution Avenue, NW
Washington, DC 20530
Phone: 202-514-3101
Fax: 202-514-1778

Labor

Ms. Patricia W. Lattimore
Assistant Secretary for Administration
and Management
U.S. Department of Labor
Room S-2514
200 Constitution Avenue, NW
Washington, DC 20210
Phone: 202-693-4040
Fax: 202-693-4055

National Aeronautics and
Space Administration

Mr. Jeffrey E. Sutton
Associate Administrator for Management
Systems
National Aeronautics and Space Administration
Code J, Room 6W17
300 E Street, SW
Washington, DC 20546-0001
Phone: 202-358-2800
Fax: 202-358-3068

Postal Service

Mr. William Dowling
Vice President, Engineering
U.S. Postal Service
8403 Lee Highway
4th Floor
Merrifield, VA 22082-8101
Phone: 703-280-7001
Fax: 703-280-8401

State

Mr. Patrick S. Kennedy
Assistant Secretary
for Administration
U.S. Department of State
Room 6330
22nd & C Streets, NW
Washington, DC 20520
